ABOUT THE COLLEGE

Devsthali Vidyapeeth College of Pharmacy is one of the premier educational College of Kumaon region of Uttarakhand, established in 2008, College is strategically situated in the sprawling campus with an imposing and most conducive atmosphere with state of the infrastructure and dedicated team of highly experienced faculties. The institute constantly strives in "pursuit of excellence" in the field of Pharmacy education.

College offers Diploma, Degree and Post Graduate Programs in the field of Pharmacy Education, recognized by Pharmacy Council of India (New Delhi). More than 12 batches of pharmacy students have passed with glorifying results and excellent track record of placements in various reputed Pharmaceutical Companies apart from position holders in the University. Our College believe in working with sole aim of receiving new heights in field of Pharmacy Education. Kindly visit our website <https://www.devsthali.edu.in> for more details. Its location near the city of Rudrapur and proximity to the airport, as well as its well-connectedness by train and road, makes it easily accessible for students from both within and outside of Uttarakhand.

ABOUT THE ASSOCIATION

Association of Pharmacy Professionals (APP) is a unique organization of more than 2000 dedicated professionals willing to serve pharmacy profession in dynamic ways and involves people from various arena including students, teachers, researchers, scientists as well as industry professionals. APP aids in extending the knowledge and facilities of several technical institutes, industries as well as health sectors to the remote areas where the service and live functionality of pharmacy profession is the real want. This humble act might be in the form of academic, research or health related activities. The association also share the responsibilities of professionals towards the community and social liabilities. APP accesses the availability of expertise when it needs and ensures that the systematic teaching learning activities not only occurs but also reach to the common knowledge development system by acting as source of fulfilment. Kindly visit the association website www.appconnect.in for more details.

ABOUT THE CONFERENCE

Pharmaceutical sciences combine scientific aspects that are critical in the development and manufacture of new drugs, handling of medicines and medical devices. In the most basic sense, drug design involves the design of molecules that are complementary in shape and charge to the biomolecular target with which they interact and therefore will bind to it. Nanotechnology is the manipulation of matter on a near-atomic scale to produce new structures, materials and devices. The technology promises scientific advancement in many sectors such as medicine, consumer products, energy, materials, and manufacturing.

The study of pharmacology encompasses the sources, chemical properties, biological effects and therapeutic uses of drugs. Pharmacy uses the knowledge derived from pharmacology to achieve optimal therapeutic outcomes through the appropriate preparation and dispensing of medicines. Medicinal Chemistry is the science that deals with the discovery or design of new therapeutic chemicals and their development into useful medicines. Pharmaceutics and Pharmaceutical Technology is concerned with the design and formulation of drugs into different dosage forms. In the present conference, pharmaceutical experts from international/national organizations will address on diverse aspects of pharmaceutical sciences.
